Sandy's Bio

A passion for making things beautiful is what started it all. Sandy Anchondo's natural creative abilities were nurtured while growing up in Southern California. Sandy explored every opportunity to experiment with paint, make crafts, and create unique items using found objects from around the house. She was constantly moving furniture and making other changes with whatever she had to work with in the family home. Little did she know that these efforts were her first exposure to what we call "redesign" or Room Makeovers in the industry today!

After completing an Associate Degree in Merchandising/Interior Design and a Bachelor Degree in Business/Marketing, Sandy's destiny changed course, as she chose a career in corporate sales putting her interior design aspirations on hold. Never forgetting her passion and enthusiasm for the design field, Sandy parted ways with the corporate world after almost 20 years and in 2004, she launched Re-Style Interiors.

Re-Style Interiors is a full-service design firm offering a unique blend of contemporary and modern style with the warmth of casual elegance. Sandy's clients love their finished designs and have provided for a long list of happy testimonials. Sandy is a published author, her work has been featured in Orange Coast Magazine and she continues to win awards on the very popular home remodeling and design website, [Houzz.com](https://www.houzz.com). Sandy loves decorating, has a soft spot in her heart for all animals, and enjoys bringing design dreams to life!
